

# W650/400

## CUSTOM PARTS COLLECTION

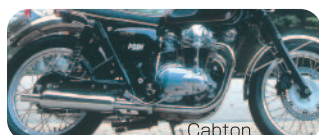

Triumph

These are our mufflers for the W650 equipped with catalytic converters. The muffler on the BC-EJ650A model has a catalytic converter, preventing it from being replaced with a muffler without one. So POSH has released mufflers with catalytic converters that work with all models from the initial release through catalytic converter equipped BC-EJ650A. Sound is kept within the regulated volume (93db) for the most recent BC-EJ650A model, while still producing the throbbing sound typical of two-cylinder engines. And maximum power output performance exceeds that with stock mufflers. Exhaust gas test certificate included. Certified by JMCA. Close-range exhaust volume is 93db.

### W650 PCM Stainless Triumph Full Exhaust

P/No.	Finish	Price
040150-CA	Polish	¥123,900

Cabton

### W650 PCM Stainless Cabton Full Exhaust

P/No.	Finish	Price
040151-CA	Polish	¥123,900

### W400 PCM Stainless Triumph Full Exhaust

P/No.	Finish	Price
042150-CA	Polish	¥123,900

### W400 PCM Stainless Cabton Full Exhaust

P/No.	Finish	Price
042151-CA	Polish	¥123,900

The stock muffler on the Kawasaki W400 has a catalytic converter, preventing it from being replaced with a muffler without one. So POSH has developed mufflers with catalytic converters designed just for the W400. Sound is kept within the regulated volume (94db), while still producing the throbbing sound typical of two-cylinder engines. And power output performance exceeds that with stock mufflers.

Stainless steel construction / Exhaust gas test certificate included / Certified by JMCA / Close-range exhaust volume: 94db (2006 and later models)

### W1 Sound Returns

#### Cabton Slip-on Muffler

P/No.	Price
040050	¥47,250

Cut the stock exhaust pipe (double pipe structure for burn prevention) and attach as a slip-on type muffler. The stock muffler can be reattached using the included joint pipe.

This slip-on type muffler was designed with the sound of the original W1 (with W1SA type inner exhaust) in mind. It attaches right to the stock stay. (Not JMCA-conforming)

### W650 W1 Type Exhaust Pipe / W1 Type Full Exhaust

P/No.	Description	Price
040051	Exhaust Pipe only	¥39,900
040052	Exhaust Pipe + Silencer	¥81,900

The W1 type exhaust pipe under development is finished at last! As it is a single pipe, the inside diameter is larger (38 mm compared to the stock 29 mm). You don't lose low-speed performance, and you get smoother flow even up to higher RPMs. (Not JMCA-conforming)

This can be attached even if using a previous POSH slip-on muffler for enjoyment as a full exhaust. (Steel with chrome finish)

### W650 Initial Adjusters

Type1: With air valve, preload / air adjustment possible

#### ■ Silver Body

P/No.	Color	Price
041065-01	BLUE	¥15,750
041065-02	RED	¥15,750
041065-03	SILVER	¥15,750
041065-11	TITAN	¥15,750

#### ■ Black Body

**W650/400 Cafe' Semi-Double Seat**

P/No.	Piping color	Price
040102-03	White	¥39,900
040102-06	Black	¥39,900

**W650/400 Raised Instrument Stay**

P/No.	Color	Price
040076-06	BLACK	¥5,040

The angle is raised approximately 26° compared to stock to prevent sunlight reflection in day riding and improve visibility at night. The stay is made of 3 mm thick stainless steel for excellent durability and vibration resistance.

**W650/400 Round Tail Light Kit**

P/No.	Price
040190	¥12,600

This staple round tail lamp was designed just for the W650/400. Rubber base gasket is used for excellent fitting to the fender and vibration resistance. Holes need to be drilled in the fender to attach.

**W650/400 Rear Flat Fender**

■ Without tail lamp

P/No.	Price
040039-06	¥15,540

■ With vintage round tail lamp

P/No.	Color	Price
040390-03	Chrome	¥22,050
040390-06	BLACK	¥22,050

■ With vintage tapered tail lamp

P/No.	Color	Price
040590-06	BLACK	¥22,260

**OFFICIAL**

**W650/400 Bolt-on Tail Lamp Kit**

P/No.	Type of tail lamp	Price
① 940202	Small Lucus	¥8,925
② 940203	Round	¥8,925
③ 940201	Large Lucus	¥8,925

No holes need to be drilled in stock fender. Made of FRP.
